

SOUND OUT · PRACTICE SHEET

Lesson 6.01 · How Your Body Is Built

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Learn the description text structure and its signal words; be introduced to the reciprocal-teaching routine (Predictor, Questioner, Clarifier, Summarizer) through a fully modeled tutor dialogue.

1 Words from this lesson

read each word, say what it means

organ
a part inside your body that does a specific job — like the heart, the lungs, or the stomach.

structure
the way something is built or put together, so it can do its job.

2 Write

In 2–4 sentences, explain the four levels of the body's structure (cell, tissue, organ, system) in your own words, using at least one signal word from today's list (for example, such as, characteristics, for instance, in fact).

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
