

SOUND OUT · PRACTICE SHEET

Lesson 6.02 · How Your Heart Keeps You Alive

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Learn the sequence text structure and its signal words; use a sequence-chain graphic organizer to support summarizing; move the reciprocal-teaching routine to the SHARED stage.

1 Words from this lesson

read each word, say what it means

circulate
to move continuously around a loop or system, coming back to where it started.

contract
to become smaller or tighter by squeezing, usually followed by relaxing again.

2 Write

Using your sequence chain, write 3–4 sentences describing the path blood takes through the heart, using at least two sequence signal words (first, next, then, after, finally).

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
