

SOUND OUT · PRACTICE SHEET

Lesson 6.03 · Why We Get Sick — and How the Body Fights Back

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Learn the cause/effect text structure and its signal words; learn monitoring/fix-up as a comprehension strategy; practice long-sentence chunking on a real sentence from today's text.

1 Words from this lesson

read each word, say what it means

infection

when harmful germs — like bacteria or viruses — get into the body and start to multiply, often making you feel

immune

able to resist or fight off something, especially germs and disease.

2 Write

Write 3–4 sentences explaining the cause-and-effect chain from "a germ enters the body" to "you recover," using at least two cause/effect signal words (because, as a result, therefore, due to, so, consequently, leads to).

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
