Lesson 6.04 · Clean Water, Fewer Diseases

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Learn the problem/solution text structure and its signal words; learn clarifying/inference as a comprehension strategy; practice pronoun reference tracing on a real sentence from today's text; close Unit A (Body & Health) with a short synthesis task comparing two Unit A texts.

1 Words from this lesson

read each word, say what it means

sanitation

systems and practices — like clean toilets, sewers, and waste disposal — that keep water and surroundings free

contaminate

to make something dirty, polluted, or unsafe by adding something harmful to it.

2 Write

In 4–6 sentences, compare L6.03 (Why We Get Sick) and L6.04 (Clean Water, Fewer Diseases). Both texts are about disease, but one focuses on how the body reacts to germs already inside it, and the other focuses on stopping germs from getting in in the first place. Explain this dif

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
