

SOUND OUT · PRACTICE SHEET

Lesson 6.07 · Climate Change: One Cause, Many Effects

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Read a cause/effect text about climate change, and learn a hard-sentence scaffold — a set of four moves for tackling a single sentence that is genuinely harder than your comfortable reading level.

1 Words from this lesson

read each word, say what it means

consensus
general agreement among a large group of people, especially experts, after looking at the same evidence

2 Write

In 3–4 sentences, explain the cause-and-effect chain in this text: what is the one underlying cause, and name at least two different effects it produces. Use at least one cause/effect signal word.

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
