

SOUND OUT · PRACTICE SHEET

Lesson 6.08 · Floods and Droughts: Naming the Problem, Finding the Fix

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Read a problem/solution text about floods and droughts, choose your own sentence to unpack using any syntax focus learned so far, and complete Unit B with a synthesis task comparing this unit's texts.

1 Words from this lesson

read each word, say what it means

variability
how much something changes or varies, rather than staying steady or predictable

absorb
to take in or soak up a liquid, or (more broadly) to take in something and hold onto it

2 Write

In 5–6 sentences, compare the water-cycle text (L6.06) and the climate-change text (L6.07). Answer: How does the water cycle connect to climate change? What happens to the water cycle when the climate changes, based on what both texts told you? Use at least one signal word from e

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
