Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Read and discuss an informational text about banks, loans, and interest; review description and sequence structure; apply the lateral-reading protocol to a real-world "get rich quick" claim.

1 Words from this lesson

read each word, say what it means

institution
a large, organized body that provides a service to many people, usually with official rule

guarantee
a firm promise that something will happen or be true

skeptical
not easily convinced; questioning a claim instead of accepting it right away

2 Write

In 3–5 sentences, explain to a friend who has never had a bank account: (a) what actually happens to their money when they deposit it, and (b) one warning sign they should watch for if someone offers them a "guaranteed" way to get rich fast.

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
