Lesson 6.11 · How a Government Decides Where Money Goes

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Read and discuss an informational text about how a government budget works, from revenue to spending; review sequence and cause/effect structure and connectives-in-argument syntax work.

1 Words from this lesson

read each word, say what it means

revenue
money that comes in to an organization or government, usually from taxes, fees, or sales

allocate
to officially give a certain amount of something (usually money) to a particular purpose

priority
something treated as more important and dealt with before other things

2 Write

In 3–5 sentences, explain why a government cannot fund every request it receives, and give one reason some important spending (like education) might get less attention than more visible spending (like road repair).

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.
