Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Read and discuss an informational text on inflation; review cause/effect structure and passive-voice unpacking; complete the Unit C writing-to-read synthesis comparing taxes and inflation.

1 Words from this lesson

read each word, say what it means

purchasing power
how much a fixed amount of money can actually buy

erode
to gradually wear away or reduce something over time

fixed income
money a person regularly receives that does not automatically go up when prices rise

2 Write

In a short paragraph (5–8 sentences), compare how taxes and inflation both affect a family's monthly budget. Use at least one idea from the L6.12 taxes text and at least one idea from today's inflation text. Consider: How is a tax bill different from inflation's effect, in terms

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence
