Lesson 6.01 · How Your Body Is Built

Level 6 reading lesson

Level 6

Name _____

Date _____

Thin sheet, on purpose. Level 6 lessons are reading-and-thinking lessons built on a long text, and the text is in the app. This sheet carries only the lesson's word list and writing task from the course data. Words here are not limited to taught sounds, because Level 1 to 4 already taught them all.
Goal: Learn the description text structure and its signal words; be introduced to the reciprocal-teaching routine (Predictor, Questioner, Clarifier, Summarizer) through a fully modeled tutor dialogue.

1 Words from this lesson

read each word, say what it means

organ
a part inside your body that does a specific job — like the heart, the lungs, or the stomach.

structure
the way something is built or put together, so it can do its job.

2 Write

In 2–4 sentences, explain the four levels of the body's structure (cell, tissue, organ, system) in your own words, using at least one signal word from today's list (for example, such as, characteristics, for instance, in fact).

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

My progress ☐ I read the words ☐ I can say what they mean ☐ I wrote my sentence

Days I practised: ◯ ◯ ◯ ◯ ◯

Words come straight from the course lesson file. Not checked for sound-by-sound decodability: Levels 5-7 read whole words and word parts.

Goal: Learn the sequence text structure and its signal words; use a sequence-chain graphic organizer to support summarizing; move the reciprocal-teaching routine to the SHARED stage.

1 Words from this lesson

read each word, say what it means

circulate
to move continuously around a loop or system, coming back to where it started.

contract
to become smaller or tighter by squeezing, usually followed by relaxing again.

2 Write

Using your sequence chain, write 3–4 sentences describing the path blood takes through the heart, using at least two sequence signal words (first, next, then, after, finally).

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

Goal: Learn the cause/effect text structure and its signal words; learn monitoring/fix-up as a comprehension strategy; practice long-sentence chunking on a real sentence from today's text.

1 Words from this lesson

read each word, say what it means

infection

when harmful germs — like bacteria or viruses — get into the body and start to multiply, often making you feel

immune

able to resist or fight off something, especially germs and disease.

2 Write

Write 3–4 sentences explaining the cause-and-effect chain from "a germ enters the body" to "you recover," using at least two cause/effect signal words (because, as a result, therefore, due to, so, consequently, leads to).

GROWN-UP TIP Read the words together, then ask what each one means. Let your learner write in their own words. Do not rush: a few good sentences beat a full page. Five minutes is plenty: stop while it is still fun. Cheer for trying, not just for being right.

Goal: Learn the problem/solution text structure and its signal words; learn clarifying/inference as a comprehension strategy; practice pronoun reference tracing on a real sentence from today's text; close Unit A (Body & Health) with a short synthesis task comparing two Unit A texts.

1 Words from this lesson

read each word, say what it means

sanitation

systems and practices — like clean toilets, sewers, and waste disposal — that keep water and surroundings free

contaminate

to make something dirty, polluted, or unsafe by adding something harmful to it.

2 Write

In 4–6 sentences, compare L6.03 (Why We Get Sick) and L6.04 (Clean Water, Fewer Diseases). Both texts are about disease, but one focuses on how the body reacts to germs already inside it, and the other focuses on stopping germs from getting in in the first place. Explain this dif

Goal: Read a compare/contrast text about how Earth's water is divided between salt and fresh water, and take full ownership of the reciprocal-teaching routine for the first time.

1 Words from this lesson

read each word, say what it means

vast
extremely large in area or amount

accessible
able to be reached, used, or gotten to without much difficulty

2 Write

In 3–4 sentences, compare salt water and fresh water using at least one signal word from today's list (however, unlike, in contrast, similarly, whereas, both).

Goal: Read a sequence text about the water cycle, running the full reciprocal-teaching routine independently, and learn to unpack passive-voice sentences to find out who — or what — is really doing the action.

1 Words from this lesson

read each word, say what it means

evaporate
to change from a liquid into a gas, usually because of heat

condense
to change from a gas back into a liquid, usually because of cooling

2 Write

In 3–4 sentences, summarize the water cycle in your own words, using at least two sequence signal words (first, next, then, after, finally, meanwhile).

Goal: Read a cause/effect text about climate change, and learn a hard-sentence scaffold — a set of four moves for tackling a single sentence that is genuinely harder than your comfortable reading level.

1 Words from this lesson

read each word, say what it means

consensus
general agreement among a large group of people, especially experts, after looking at the same evidence

2 Write

In 3–4 sentences, explain the cause-and-effect chain in this text: what is the one underlying cause, and name at least two different effects it produces. Use at least one cause/effect signal word.

Goal: Read a problem/solution text about floods and droughts, choose your own sentence to unpack using any syntax focus learned so far, and complete Unit B with a synthesis task comparing this unit's texts.

1 Words from this lesson

read each word, say what it means

variability
how much something changes or varies, rather than staying steady or predictable

absorb
to take in or soak up a liquid, or (more broadly) to take in something and hold onto it

2 Write

In 5–6 sentences, compare the water-cycle text (L6.06) and the climate-change text (L6.07). Answer: How does the water cycle connect to climate change? What happens to the water cycle when the climate changes, based on what both texts told you? Use at least one signal word from e

Goal: Learn lateral reading — the practice of leaving a page to check who's behind it, before deciding whether to trust it — through a worked example and a guided practice scenario.

1 Words from this lesson

read each word, say what it means

credible
believable, worthy of trust, because of good evidence or a trustworthy source

sponsored
paid for by a company or organization, usually to promote a product, service, or point of view, even when it's

2 Write

Using the three lateral-reading habits from today's text, write 4–6 sentences explaining what you would do before deciding whether to trust or donate to this site — not what you think of the site emotionally, but the concrete steps you'd take.

Goal: Read and discuss an informational text about banks, loans, and interest; review description and sequence structure; apply the lateral-reading protocol to a real-world "get rich quick" claim.

1 Words from this lesson

read each word, say what it means

institution
a large, organized body that provides a service to many people, usually with official rule

guarantee
a firm promise that something will happen or be true

skeptical
not easily convinced; questioning a claim instead of accepting it right away

2 Write

In 3–5 sentences, explain to a friend who has never had a bank account: (a) what actually happens to their money when they deposit it, and (b) one warning sign they should watch for if someone offers them a "guaranteed" way to get rich fast.

Goal: Read and discuss an informational text about how a government budget works, from revenue to spending; review sequence and cause/effect structure and connectives-in-argument syntax work.

1 Words from this lesson

read each word, say what it means

revenue
money that comes in to an organization or government, usually from taxes, fees, or sales

allocate
to officially give a certain amount of something (usually money) to a particular purpose

priority
something treated as more important and dealt with before other things

2 Write

In 3–5 sentences, explain why a government cannot fund every request it receives, and give one reason some important spending (like education) might get less attention than more visible spending (like road repair).

1 Words from this lesson

read each word, say what it means

public good

something everyone in a community can use and benefit from, which usually isn't provided well if left only to

contribute

to give something (money, time, effort) as a share toward a larger shared purpose

evade

to deliberately avoid doing something you are supposed to do, often by dishonest means

1 Words from this lesson

read each word, say what it means

purchasing power
how much a fixed amount of money can actually buy

erode
to gradually wear away or reduce something over time

fixed income
money a person regularly receives that does not automatically go up when prices rise

2 Write

In a short paragraph (5–8 sentences), compare how taxes and inflation both affect a family's monthly budget. Use at least one idea from the L6.12 taxes text and at least one idea from today's inflation text. Consider: How is a tax bill different from inflation's effect, in terms
